I attacked in Crowd City was not a fight or something violent? You can engage members of other teams by visiting them. But be careful because if you have bigger members than them, they can swallow all your members and your game will be over. However, if you move efficiently, you can steal some of their members, but I don't think that's a good idea. Simple control voodoo games are simple and often minimal in their way of managing. Crowd City is no exception. Easy to play, simple, and addictive is what players often say about their game. In this game, you just have to control the direction of the crowd in a smart way to attract more and more people. If other players are fast, they will attract people on the road so you don't increase your crowd. The best way to steal all members of other groups is to corner them, so they are unlikely to escape. Remember that when you have more soldiers, you are an undefeated champion. Get top 1 and earn stars in this game, players come from all over the world. Whenever you beat all the other players and win in the top 1, you get a lot of stars. When you start a game it's a star to buy more people, V.O. people, the more profit you will have over your competitors. Crowd City's simple graphics are simulated with 3D graphics. Scenes like trees, houses are very similar to reality. However, people are opposed to sports. You can see that everyone is designed the same, only different in color. In addition, sound also helps make the game more fun.
